Re: First Request for Information Pursuant to Section 104 CERCLA
for the Vasquez Boulevard/I-70 Site – Denver, Colorado

Dear Mr. Phoebe:

Enclosed for your review is a map prepared for the City and County of Denver by Walsh Environmental Scientists and Engineers, Inc. The map depicts current ownership of operable unit 2, with the smelter buildings superimposed over the current property ownership distribution. The location of the smelter building was determined from a 1903 Sanborn fire insurance map. Also shown on the map is a transparency of the last known aerial photograph of the smelter stack, taken in 1949.

I hope this information assists you in your search for potentially responsible parties. Please do not hesitate to call me at 720-913-3265 if I can be of further assistance.

Sincerely,

Monica Heitzmann
Consulting Attorney
